

TELJESÍTMÉNYNYILATKOZAT

fischer 
innovative solutions

sz. 0057 – HU

1. A terméktípus egyedi azonosító kódja: **fischer termoz PN 8**

2. Felhasználás célja(i):

Termék	Rendeltetésszerű használat
Műanyag dübel betonban és falazatban való használatra	Vakolt, többrétegű hőszigetelő rendszerekhez (WDVS) a szélteher továbbvezetésére, Lásd függelék, mellékletek B 1 - B 3

3. Gyártó: **fischerwerke GmbH & Co. KG, Klaus-Fischer-Straße 1, 72178 Waldachtal, Németország**

4. A meghatalmazott képviselő: --

5. Az AVCP-rendszer(ek): **2+**

6a. Harmonizált szabvány: ---

Bejelentett szerv(ek): ---

6b. Az európai értékelési dokumentum: **ETAG 014; 2011-02**Európai műszaki értékelés: **ETA-09/0171; 2016-03-18**A műszaki értékelést végző szerv: **DIBt**Bejelentett szerv(ek): **1343 – MPA Darmstadt**

7. A nyilatkozatban szereplő teljesítmény(ek):

Biztonságos használat (BWR 4)

Fontos jellemző	Teljesítmény
karakterisztikus ellenállás húzásra	Id. a Mellékletet, különösen ezt a mellékletet: C 1
Perem - és tengelytávolságok	Id. a Mellékletet, különösen ezt a mellékletet: B 2
Pontbeli hőátadási tényező	Id. a Mellékletet, különösen ezt a mellékletet: C 2
Talplemez merevség	Id. a Mellékletet, különösen ezt a mellékletet: C 2
Elmozdulások	Id. a Mellékletet, különösen ezt a mellékletet: C 2

8. Megfelelő műszaki dokumentáció és/vagy egyedi műszaki dokumentáció: ---

A fent azonosított termék teljesítménye megfelel a bejelentett teljesítmény(ek)nek. A 305/2011/EU rendeletnek megfelelően e teljesítménynyilatkozat kiadásáért kizárolag a fent meghatározott gyártó a felelős.

A gyártó nevében és részéről aláíró személy:

Andreas Bucher, Dipl.-Ing.

Wolfgang Hengesbach, Dipl.-Ing., Dipl.-Wirtsch.-Ing.

Tumlingen, 2016-03-30

- Ez a Teljesítmény nyilatkozat különböző nyelveken elkészült.. Vitás értelmezés esetén az angol verzió az irányadó!.

- A melléklet a (nyelvsemleges formában megadott) törvényi előírásokon túl önkéntesen megadott, kiegészítő információkat is tartalmaz angolul.

Specific Part**1 Technical description of the product**

The fischer nailed-in anchor termoz PN 8 consists of a plastic sleeve made of polypropylene, a plate and an accompanying specific nail made of glass fibre reinforced polyamide.

The anchor may in addition be combined with the anchor plates DT 90, DT 110 and DT 140.

The Product description is given in Annex A.

2 Specification of the intended use in accordance with the applicable European Assessment Document

The performances given in Section 3 are only valid if the anchor is used in compliance with the specifications and conditions given in Annex B.

The verification and assessment methods on which this European Technical Assessment is based lead to the assumption of a working life of the anchor of at least 25 years. The indications given on the working life cannot be interpreted as a guarantee given by the producer, but are to be regarded only as a means for choosing the right products in relation to the expected economically reasonable working life of the works.

3 Performance of the product and references to the methods used for its assessment**3.1 Mechanical resistance and stability (BWR 1)**

The essential characteristics regarding mechanical resistance and stability are included under the Basic Works Requirement Safety in use.

3.2 Hygiene, health and the environment (BWR 3)

Regarding dangerous substances there may be requirements (e.g. transposed European legislation and national laws, regulations and administrative provisions) applicable to the products falling within the scope of this European Technical Assessment. In order to meet the provisions of Regulation (EU) No 305/2011, these requirements need also to be complied with, when and where they apply.

3.3 Safety in use (BWR 4)

Essential characteristic	Performance
Characteristic tension resistance	See Annex C 1
Edge distances and spacing	See Annex B 2
Point thermal transmittance	See Annex C 2
Plate stiffness	See Annex C 2
Displacements	See Annex C 2

4 Assessment and verification of constancy of performance (AVCP) system applied, with reference to its legal base

In accordance with guideline for European technical approval ETAG 014, February 2011 used as European Assessment Document (EAD) according to Article 66 Paragraph 3 of Regulation (EU) No 305/2011 the applicable European legal act is: 97/463/EC.

The system to be applied is: 2+

termoz PN 8**Legend**

- h_{nom} = Overall plastic anchor embedment depth in the base material
- h_1 = Depth of drilled hole to deepest point
- h = Thickness of member (wall)
- h_D = Thickness of insulation material
- t_{tol} = Thickness of equalizing layer or non-load bearing coating

fischer termoz PN 8	Annex A1
Product description	
Installed anchor	

termoz PN 8

¹⁾ Various length of the anchors are possible

Table A2.1: Dimensions

Anchor type	Anchor sleeve		Accompanying specific plastic nail		
	$\varnothing d_d$ [mm]	h_{nom} [mm]	$\varnothing d_n$ [mm]	L_1 [mm]	$\varnothing d_1$ [mm]
termoz PN 8	8	35/55 ¹⁾	4,4	40	8

¹⁾ Only for use Cat. D and E

Determination of maximum thickness of insulation: $h_D = L_a - h_{nom} - t_{tol}$
 e.g. for termoz PN 8x150:
 $L_a = 148 \text{ mm}, h_{nom} = 35 \text{ mm}, t_{tol} = 10 \text{ mm}$ $h_D = 148 - 35 - 10 \approx 100 \text{ mm}$
 termoz PN 8 : $L_{a\ min} \geq 110 \text{ mm}; L_{a\ max} \leq 230 \text{ mm}$
 $L_a = \text{length of accompanying specific nail } L_n + 5 \text{ mm}$

Annex A3

Specifications of intended use

Anchors subject to:

- The anchor may only be used for transmission of wind suction loads and shall not be used for the transmission of dead loads of the external thermal insulation composite system (ETICS).

Base materials:

- Normal weight concrete (use category A) according to Annex C1.
- Solid masonry (use category B), according to Annex C1.
- Hollow or perforated masonry (use category C), according to Annex C1.
- Lightweight aggregate concrete (use category D), according to Annex C1.
- Autoclaved aerated concrete (use category E), according to Annex C1.
- For other base materials of the use categories A, B, C, D and E the characteristic resistance of the anchor may be determined by job site tests according to ETAG 014 Edition February 2011, Annex D.

Temperature Range:

- 0°C to +40°C (max. short term temperature +40°C and max. long term temperature +24°C).

Design:

- The anchorages are designed in accordance with ETAG 014 Edition February 2011 under the responsibility of an engineer experienced in anchorages and masonry work.
- Verifiable calculation notes and drawings are prepared taking account of the loads to be anchored. The position of the anchors is indicated on the design drawings.
- Fasteners are only to be used for multiple fixings of ETICS.

Installation:

- Drilling method according to Annex C1.
- Anchor installation carried out by appropriately qualified personnel and under the supervision of the person responsible for technical matters on the site.
- Installation temperature from 0°C to +40°C
- Exposure to UV due to solar radiation of the anchor not protected by rendering ≤ 6 weeks.

fischer termoz PN 8	Annex B1
Intended use Specification	

Table B2.1: Installation parameters

Anchor type	termoz PN 8		
Drill hole diameter	d_0	= [mm]	8
Cutting diameter of drill bit	d_{cut}	\leq [mm]	8,45
Depth of drilled hole to deepest point	h_1	\geq [mm]	45/65 ¹⁾
Overall plastic anchor embedment depth in the base material	h_{nom}	\geq [mm]	35/55 ¹⁾

¹⁾ Only for use categorie "D" and "E"

Table B2.2: Minimum distances and spacings

			termoz PN 8
Minimum thickness of member	h	\geq [mm]	100
Minimum spacing	s_{min}	= [mm]	100
Minimum edge distance	c_{min}	= [mm]	100
